

Master of Educational Psychology

As only one of four educational psychology courses in the country, our highly regarded Master of Educational Psychology will prepare you to work as a registered psychologist supporting individuals with developmental and learning issues across the lifespan.

Overview

This course will provide you with training to work as a professional educational psychologist with skills in counselling, psychological assessment, research methods, intervention, group work, consultation and multidisciplinary team work. You will complete 200 points of coursework comprising nine core subjects, a minimum of 1000 hours of supervised placement in professional field settings and a 10,000 word research project.

With a focus on early childhood development, learning issues, mental health, life transitions and promoting wellbeing across the lifespan, this course provides training for educational psychology work in a wide range of settings such as early childhood centres, primary and secondary schools, tertiary institutions, health and welfare services, hospitals and clinical practices.

Outcomes

The Master of Educational Psychology qualifies you to practise as a registered psychologist and become a Member of the Australian Psychological Society and Associate Member of the College of Educational and Developmental Psychologists.

Graduates can work in:

- Schools, as a psychologist, student counsellor or welfare coordinator
- Agencies treating children with emotional and behavioural difficulties
- Government education and health departments
- Clinics, hospitals and private practices
- Universities and research units.

 Core subject

Quick facts

Duration

2 years full time, 4 years part time

Delivery mode

On campus with some subjects offered partially in intensive Saturday workshops

Entry

Semester 1 (February)

Fees

Commonwealth Supported Place, Australian fee-paying and international fee places available

Entry requirements

- A four-year Australian Psychology Accreditation Council accredited degree in psychology with upper second class Honours (at least 75%), or
- An equivalent qualification in psychology with a weighted average mark of at least H2A (75%) in the final year which renders the applicant eligible for Associate Membership of the Australian Psychological Society, or
- Current registration as a psychologist with demonstrated current compliance with Registration Board continuing professional development requirements.

All applicants must also submit:

- Three academic referee reports
- A personal statement, and
- Attend an interview (if shortlisted).

All students must meet English language requirements.

Applicants with overseas qualifications must provide an Australian Psychological Society (APS) comparability assessment with their application to confirm their eligibility for Associate Membership. Visit www.psychology.org.au

Please note: If your application is successful, you must apply for provisional registration with the Psychology Board of Australia (if not currently registered) and undertake a Working with Children Check when you enrol in the course.
